
INSTRUCTIONS

Posted by ozone914 - 2008/03/31 13:06

well, i gues u figured this thing out.

we had to create separate categories and then forums within those categories also, its good to add a date so we can search for this post later.

the hard part is to change the css that shows the submit button.
it has a highlighted help bar, so,

here it is until i can change it.

| submit | preview | cancel |
